Click To Calm is based on the principles of operant conditioning, which is a type of learning that uses rewards and punishments to shape behavior. When a dog behaves in a gewünschte Weise, they are given a treat or other reward. When they behave in an undesired way, they are given a mild punishment, such as a verbal correction or a time-out.

Click To Calm uses a clicker to mark the exact moment that a dog behaves in a gewünschte Weise. The clicker is a small, handheld device that makes a clicking sound when it is pressed. When a dog hears the click, they know that they have done something right and that they will be rewarded.

Click To Calm is a very effective way to train aggressive dogs because it is positive and emphasizes rewarding the dog for good behavior. It does not use any harsh or punitive methods, which can only make aggression worse.

If you are looking for a humane and effective way to train your aggressive dog, Click To Calm is the best option for you. It is a proven method that has helped thousands of dogs to overcome their aggression and live happy, healthy lives.

## **How to Use Click To Calm**

To use Click To Calm, you will need a clicker and a high-value treat that your dog loves. You can use any type of treat, but it is important to use something that your dog is really motivated to work for.

Once you have your clicker and treats, you can start training your dog. Here are the steps:

1. Start by teaching your dog the clicker. To do this, simply click the clicker and then give your dog a treat. Repeat this several times until your dog learns that the clicker means that they have done something right.
2. Once your dog has learned the clicker, you can start using it to train them how to behave appropriately. When your dog behaves in a gewünschte Weise, such as sitting or staying, click the clicker and then give them a treat.
3. If your dog behaves in an undesired way, such as growling or lunging, do not click the clicker. Instead, simply give them a verbal correction or a time-out.
4. Be patient and consistent with your training. It may take some time for your dog to learn how to behave appropriately, but with patience and perseverance, you will be successful.

## Benefits of Click To Calm

Click To Calm has many benefits for both dogs and their owners. Some of the benefits include:

\* \*\*Reduced aggression\*\* - Click To Calm has been shown to be effective in reducing aggression in dogs of all ages and breeds. \* \*\*Improved behavior\*\* - Click To Calm can help dogs to learn how to behave appropriately in a variety of situations. \* \*\*Strengthened bond between dog and owner\*\* - Click To Calm can help to strengthen the bond between dog and owner by providing a positive and rewarding training experience. \* \*\*Increased confidence\*\* - Click To Calm can help dogs to become more confident and less fearful of their environment. \* \*\*Improved quality of life\*\* - Click To Calm can help dogs to live happier, healthier lives by reducing their aggression and improving their behavior.
